Letter From the Principal

Mrs. Sarah Fortier

Dear Class of 2018:

Winnie the Pooh said, "We didn't realize we were making memories. We just knew we were having fun." It's hard to believe that four years have come and gone and that you are all headed off to see what the future has in store for you. Your time at MSJ has certainly been memorable.

It seems like yesterday each of you walked through the doors on 127 Convent Ave. for your first day an official Mountie. Since that day so much has occurred. There have been football games, basketba championships, cross country races and trophies, dramas, comedies, baseball playoffs, soccer games and lots of learning. There have been fun filled days spent in the halls and classrooms of MSJ. Ther has been laughter and tears. There have been times spent praying together in chapel. There have bee field trips, proms, homecoming games, pep rallies and community service projects. The class of 201 has so many memories.

This class boasts dancers, future doctors, personal trainers, track stars, incredible scholars, musician artists, gifted public speakers and so much more. I think I speak for all of us when I say that we look forward to seeing all your successes in the future. We can not wait to hear about them!

As you walk away from your time at Mount Saint Joseph Academy know that you join a new, proud and distinguished community; the MSJ alumni. It is my sincere hope that each of you will remember fondly the time you spent at MSJ and that you enter the world armed with the tools necessary to navigate an ever changing and challenging world: knowledge, strength and, most importantly, faith i the teachings of Jesus Christ. It is these things that will guide you on your path to making this world better place. I know each of you will!!!

So my dear graduates, we wish you nothing but the best as you move forward and I thank you all for your contributions to the MSJ community. It is the students who make MSJ the wonderful place that is. Each of you will be missed as we move on to a new year. Please know that you are always welco at MSJ and that despite the fact you are not with us everyday, you continue to be members of the MS community and you always will be.

Thank you for all the memories. Thank you for all the fun. May God grant each of you all the blessings that life has to offer.

Sincerely,

Sarah M. Fortier, MSJ class of '99

Letter from the Assistant Principal

Mr. Phil Hall

earest Class of 2018,

ur journey at MSJ started at the same time--four years ago. For that reason, you will always have a special lace in my heart as the first class that I was fortunate enough to spend four years with. We have come a long ay since 2014, and we still have a long way to go, but our time together here has prepared us for whatever omes next.

did not teach any of you during your freshman year and Coleman was the only one of you that I coached tha ear; half of you were not here yet. My most significant memory of your class from that year is sitting in staff eetings and being so glad that I did not have to teach you in my first year. In your freshman year at MSJ, as class, you established quite a reputation: the class of 2018 is the class that never says or does anything.

ast forward to 15/16 and I quickly found out that you had changed over the summer--a lot. Entering my econd year teaching sophomore chemistry at MSJ, I had some anxiety that it was going to be very difficult to each a group of students who were so reluctant to speak and act...ha! I couldn't get you kids to stop talking or five seconds to do attendance! Sophia and Mollie, my student government reps, were the worst erpetrators! Although I suppose I should thank you--you provided me with many opportunities to hone my lassroom management skills. My favorite memory of your class from this year would be learning Chinese ords from Kevin, Louie, Rain and Steven during chem lab. I will never forget how hard I laughed when I arned that the chinese for "test" is "kaoshi" and I thought that the boys were swearing at me.

uring your Junior year, I was lucky enough to have many of you in Anatomy and Physiology class. By this oint, you had all improved in your ability to pay attention during class, and I began to see your academic otential. Your presentations greatly improved throughout the year, and you had a lot of creative potential. I ill never forget Josh's shadow-box teaching activity--still one of the coolest ideas I have seen brought to life. Many of you began to take on roles with the MSJ Wave Rider group and become leaders on your different ports teams and with your various activities.

his year, you have stepped into your roles as leaders in the school. As a group, you have become the houghtful and caring core of our student body. This was not an easy year to be the senior class with all of our ew students and our huge freshman class but you have worked hard and re-established MSJ culture with pen arms pointed at your new peers. I am so proud of you all and I want to thank you from the bottom of my eart- I could not do what I do without all of you. You certainly are not the class that never says or does nything. Congratulations on all of your accomplishments and best of luck in the future.

Much love,

Coach Hall

Class of 2018 Yearbook Dedication:
Mr. Michael McIsaac
"Coach Mike"

The class of 2018 has chosen to dedicate our yearbook to Michael "Coach Mike" McIsaac. Throughout our four years at MSJ, Coach Mike has become a very importan person to our class, whether we have known him for all four years or just one. In the beginning of our Freshman year, Coach Mike was a Captain Jack Sparrow lookalike who could only be found in the weight room or on the football field. By our senior year, Coach Mike has become a coach, a mentor, and a friend to all, not just to those i our class, but to everyone in the MSJ community.

When discussing our dedication to Coach Mike, the two words that came up the most were "supportive" and "dedicated." Many of us first got to know Coach Mike throug workouts in the weightroom. Coach Mike has always been willing to help anyone in the weightroom by designing them a workout to fit their needs and helping them execute it. He supported everyone who wanted to workout, from the people who were regulars in the weightroom to those who rarely saw its insides. Coach Mike never let anyone settle and always pushed us to work as hard as we possibly could to be the bes that we could be.

There is truly no word that seems more fitting to Coach Mike than "dedicated." It did not matter if it was in the weightroom, at Outreach events, or anything MSJ related, w knew that we could count on Coach Mike to be there. Whether it was hunting down a member of a certain sports team to get the results of a game or race the night before s he could share the results on the school's social media page, finding new ways to interest potential Mounties in MSJ, or running open houses, Coach Mike was always striving to better the MSJ community.

Due to another job opportunity, our journey at MSJ with Coach Mike ended sooner than we would have liked, but we knew that the football program at West Connecticu University was extremely lucky to be gaining someone like Coach Mike. On Coach Mike's last day at MSJ, there was not a dry eye in the school, which is a true testamen to how important to so many people he had become. Although Coach Mike's official job title at MSJ was Enrollment Coordinator, he was so much more than that to everyone at MSJ, especially the Class of 2018, which is why we chose Coach Mike to receive this year's yearbook dedication.

"Hard work spotlights the character of people: some turn up their sleeves, some turn up their noses, and some don't turn up at all." -Sam Ewing

Underclassmen Advice: Don't fall into the idea that you can always work harder as a junior or senior because chances are, it'll be too late. College admissions take a holistic approach, looking at each year from the moment you walk through those doors on the first day of your freshman year, to the moment you walk across the stage to receive your diploma. Creating good study habits, learning time management, and avoiding procrastination now will continue to benefit you throughout the rest of your schooling. School won't always be easy. In fact, it only gets harder from here keep on going. Don't give up. You won't remember all the nights that you lost sleep or you crammed, but you'll definitely remember all the accomplishments you achieved. Continue to work hard, and I promise you will reap what you sow through college admissions and scholarships.

Favorite Memories at MSJ: Anything to do with football. From running the hill to death, to waking up at 3:00 am to workout with Coach Mike. I gave so much time and effort into those four years, and I would do anything to have to go through it all again with the same people.

In 10 Years... I would like to see myself done with schooling and opening my own gym, along with a supplement company, and a husky or two.

Senior Will: I want to leave Savannah Perry the weight room, Rachel Gregory the art room, and Nicolas a pair of nice pants.

"The pizza is aggressive." -Jimmy Neutron

Underclassmen Advice: Don't vape on the pizza.

In 10 Years I Will Be...27

Favorite Memory at MSJ: Meeting Nicolas Alexandre Moïse.

Senior Will: I leave nothing to everybody.

Letter From the Editor

Dear MSJ Community,

My experience at Mount St. Joseph Academy has been one filled with opportunity, lessons, and special memories. From day one of freshman year, I have found opportunities in education and have been able to participate in the community through a number of different capacities. One of the most valuable lessons I have learned in the last four years is, although it is cliché, to live in the moment. Reflecting back on my high school experience leads me to recognize how fast time goes by and how important it is to cherish these days.

At MSJ, I was able to get involved in a variety of clubs and organizations, such as prom committee, homecoming committee, and National Honor Society. Despite the rapidity of high school, I was able to experience some of the greatest years of my life; all thanks to my friends, teachers, and the rest of the MSJ community.

The idea that the publications committee and I had for this yearbook was to make it so that it could be looked back upon with fond memories. Whether it was Catholic Schools Week or homecoming spirit week, this yearbook highlights the unique experience of high school at Mount Saint Joseph Academy. Throughout the year, the publications committee and I have put a lot of effort into making our idea come to life. Now that seniors are embarking on their new journeys, this is a memento that can be taken with them along the way to never neglect all of the laughs, embarrassment, and joy that is high school.

Sincerely,
Mollie K. Giancola

Letter from the Adviser

Dear MSJ Community,

There's a great line in *A Very Potter Musical* that goes, "It's been so long, but we're going back. Don't go for work, don't go there for class…" That's how it's been for me--well, not *exactly*, as I'm sure neither the administration nor the parents and guardians of this community would be happy to see one of their teachers blowing off their duties--when I came back to Mount Saint Joseph after four years away. You see, I graduated from MSJ in 2013, and was excited to come back, fresh out of college, to teach at my alma mater.

One of those non-work, non-class duties was to take over the Publications class. And it wasn't much of a class--in the previous year, not a single student had signed up. According to the Jostens online portal, I was far behind where I was supposed to be in the planning stages, even in August. I wasn't sure what I would even do without this experience or know-how.

But then, I looked back at the old yearbooks--including the book from my graduation year--and tried to find some sort of guide to what we should do to get started. And there, I learned an important lesson very quickly: not a single one of these yearbooks is perfect. Whether it took the form of a boring background and not enough pictures, loud colors and crazy fonts that distracted from the actual contents of the book, the cushioned cover of 1960, the holographic word art from 2002, or even the embarrassing pictures of myself from 2009 through 2013, I found that even if they were really good, none of these books was perfect.

That's because these books aren't professionally-done, perfectly-sculpted publications that are put out by a team of well-trained graphic designers. They're put together by teenagers who are figuring out who they are, growing, changing, and doing their best to capture and remember the time they spent at MSJ.

At some point during the year, I told the students: "It doesn't matter which pictures you choose; in a few years, they'll be embarrassing to you no matter what." And that's the *point* of this book. It's goofy and weird and awkward, just like high school students are. It's growing and developing, as high school students are. And it is a perfect snapshot of where they're at, both in form and in content. No matter how they do it, times and styles will change. That holographic cover of sixteen years ago will seem super goofy, or the pillow padded cover from fifty-eight years ago seems sillier still. In that many years, I'm sure that this book will be looked back on with the same affectionate, taunting attitude.

The point, however, is that the students who are in this book and the students who worked on this book will be looking back on it. If we did our job right, which I think, even though I was unprepared at the start of the year, we did, in the future students can look back on this book as a representation of this year in their lives.

Of course, all of this wouldn't be possible without the amazing editor Mollie Giancola, who deserves most of the credit for making this yearbook happen. Her work ethic, determination, and persistence paid off to make sure that this book was created, and the care she put into her work is very readily apparent in its pages. She was supported by business managers Rory Carrara and Steve Descollines, who headed advertisements and sales, as well as the staff, Emily Rappeno, Sam Farrow, Steven Wilson, Tori Tracy, Sophia Duffy, Sarah Casimir, and Abi Hanley. Thanks so much to all of them for the work they put into this book.

I know I'm personally happy to look back here at MSJ, even if I may be embarrassed by the photos in the yearbook--they capture that awesome time when I was a student here, and the great experience that was. I am glad the editors of the yearbooks when I was there didn't try to perfect the pictures or over-edit to make it seem like it was something different than it was, because that period of growth and change was great. It was great because it was here at MSJ, with an excellent community and storied history that I was a part of and now have helped these students to document.

Thank you for the opportunity,
